Happenings at Head Office

At 83 Great Eastern Highway negotiations have been completed with both Main Roads and the City of Swan.

We now have the new perimeter of our business, our fence has been relocated and we are busily making changes to our display to accommodate our business in the smaller premises.

Directors, David and Thea have been in business in Midland since 1983 and are not going away, they are here to stay. All the best wishes that have been expressed throughout this time of discussions and change have been greatly appreciated by both directors, as too has the continuing loyalty of our client base and our new clients. Thank you.

Remember we are always keen to hear your stories, receive an email and photos, so don't be shy, we genuinely enjoy hearing about your travels. Keep them coming, caravanners and campers alike.
